PROFILE

Passionate third-year Information Systems undergraduate with hands-on experience developing full-stack web applications, cross-platform mobile applications, and RESTful backends using Python, Java, and modern software engineering practices. Familiar with OOP, database design, role-based access control, REST APIs, and automated testing. Currently exploring practical AI applications, including Retrieval-Augmented Generation (RAG) and computer vision, through academic and personal projects. Experienced in working collaboratively in Agile development environments.

EDUCATION

Sabaragamuwa University of Sri Lanka (2024 – Present)

BSc (Hons) in Information Systems - CGPA : 3.57

Expected Graduation : 2028

Musaeus College - Colombo 07

G.C.E. Advanced Level - Physical Science Stream

PROJECTS

• Emora – Emotion-Based Music Recommendation System (Capstone Project - Group)

Co-developed a mobile application within a 5-member team, using OpenCV and DeepFace to detect 6 facial emotion categories for personalized music recommendations.

- Built responsive Flutter UI components and view layouts, managing mobile screen lifecycles and asset rendering across diverse device screen sizes.
- Implemented client-side auth flows, handling form validation, local secure session persistence, and error states across login lifecycles.
- Integrated asynchronous HTTP network calls to consume backend endpoints, parsing JSON payloads into dynamic in-app chart widgets.

Technologies - Flutter, Python (Flask), OpenCV, DeepFace, Firebase, Postman, Git

• UniAssist – Student Academic & Productivity Platform (In Progress)

Built an AI-powered university assistant application to deliver general academic support and retrieve university-specific information.

- Developed a Flutter mobile application connected to an 8-endpoint Flask backend.
- Integrated Google Gemini for general queries and RAG to answer questions using 10+ official university documents.
- Implemented Firebase authentication, Student/Admin RBAC, and real-time chat history storage

Tech Stack: Flutter, Python (Flask), Google Gemini API, RAG, Firebase, Postman, Git

• NovaLog – Developer Task & Project Progress Tracker (In Progress)

Web application for tracking project milestones, managing developer workflows, and visualizing coding productivity.

- Implemented a MERN workflow app to track developer milestones and coding productivity.
- Developed a responsive React UI and Node.js/Express REST APIs with JWT authentication.
- Designed MongoDB data models and interactive dashboards for 4 key productivity metrics.

Tech Stack: React.js, Node.js, Express.js, MongoDB, JavaScript, JWT, Postman, Git

TECHNICAL SKILLS

- Languages: Python, Java, JavaScript, Dart, SQL
- Frameworks & Libraries: Flask, React.js, Node.js, Express.js, Flutter
- Web & APIs: HTML5, CSS3, REST APIs
- Databases: MySQL, PostgreSQL, MongoDB, Firebase
- Testing & Tools: JUnit, Postman, Git, GitHub, VS Code, Jira

SOFT SKILLS

- Problem Solving & Critical Thinking
- Adaptability & Fast Learning
- Collaborative Code Review & Team Communication
- Requirement Analysis & Edge-Case Identification
- Technical Documentation

CERTIFICATIONS

- Python Data Structures - University of Michigan (2025 - Coursera) [↗](#)
- Python Programming - University of Moratuwa (2026) [↗](#)
- Web Design for Beginners - University of Moratuwa (2025) [↗](#)
- AWS Cloud Practitioner Essentials - AWS Skill Builder (2026) [↗](#)
- Career Essentials in Generative AI - Microsoft and LinkedIn Learning (2026) [↗](#)
- AI for Everyone - DeepLearning.AI (2026) [↗](#)
- Microsoft Azure AI Essentials Professional - Microsoft and LinkedIn Learning (In Progress)
- Microsoft Learn Profile [↗](#)

VOLUNTEERING & LEADERSHIP

- Chairperson – Goal 10, SDG Task Force Project, Rotaract Club of SUSL (2025)
- Finance Team Lead, NextGen, IEEE CS Chapter of SUSL (2026)
- Committee Member, IEEE WIE Affinity Group of SUSL (2026)
- Active Knowledge Team Member, HOPE 2.0 Series , IEEE WIE Affinity Group of SUSL (2025 – 2026)
- Secretary Team Member, PearlHack V2.0 Inter-University Hackathon, IEEE WIE Affinity Group of SUSL (2024)
- Social Media Team (YouTube), Rotaract Club of SUSL (2025 – 2026)
